

## **POLICY FOR THE QUALITY AND HEALTH AND HYGIENE SAFETY**

Our company is determined to provide closures with different materials and in compliance with the highest standard level of Quality and Health and Hygiene Safety.

The application field of the Quality Management System certified ISO 9001:2015 is "Plastic closures' Design and Production".

All our workers must get involved to pursue this policy, which means:

- operational feasibility
- continuous product improvement and processes efficiency
- great customer satisfaction
- waste and flaws tending to zero
- pollution prevention
- assuring the compliance with the norms in force, regarding the materials in contact with food
- guaranteeing the health and hygiene safety, regarding the materials in contact with food

Our Company is committed to continuous improvement and to pursue the following goals:

- productive resources control
- decrease the environmental impact of the productive activity and the emissions restraint
- compliance with the applicable legislation

This policy will let our Company compete with the best companies within our brand to assure the development and the profit.

To evaluate the level of the achievement of the goals, every year we set Quality finish lines.
